OBJECTIVE

Enthusiastic UI/UX Designer with hands-on experience in designing user-friendly interfaces and wireframes. Proficient in **HTML5** and **CSS**, with a keen eye for aesthetics and usability. Eager to contribute innovative design solutions and enhance user satisfaction in a dynamic IT organization.

EDUCATION

Mahendra College of Engineering *2020 – 2024*
B.E Biomedical Engineering *CGPA: 8.02 / 10*

TECHNICAL SKILLS

UI/UX & Web	HTML5, CSS, Wireframing, User Interface Design, Usability Testing
Medical Domain	Medical Device Handling, ECG Analysis, Medical Coding
Tools	MS Office (Word, Excel, PowerPoint), Figma (Basic)
Languages	Tamil (Native), English (Professional)

EXPERIENCE

Healthwatch *1 Year*
ECG Analyst
- Analyzed ECG reports and provided accurate clinical interpretations to support medical teams.
- Coordinated with healthcare professionals to ensure timely and accurate diagnostics.

Mrudaan Company *6 Months*
Application Specialist Trainee
- Supported product demonstrations and application training for medical device clients.
- Assisted in troubleshooting and maintained client relationships post-deployment.

PROJECTS

Design and Development of Artery using TPU and HA by Additive Manufacturing
- Designed a synthetic artery model using Thermoplastic Polyurethane (TPU) and Hydroxyapatite (HA) via 3D printing.
- Focused on biocompatibility and structural integrity suitable for biomedical applications.

Continuous Passive Motion (CPM) Machine for Shoulder Joint
- Developed a CPM machine concept to improve shoulder joint mobility post-surgery.
- Designed to assist patients in recovering from stiffness and improving range of motion.

INTERNSHIPS

- **Kurinji Multi Speciality Hospital, Salem** – Hospital Training Internship; gained practical exposure to medical equipment handling and clinical workflows.
- **Medingers Company** – Industry Internship; enhanced knowledge of medical device applications and troubleshooting.
- **Prashan Company** – Project Internship; contributed to real-world project development and execution.

CERTIFICATIONS & ACHIEVEMENTS

- **Certified Cardiographic Technician** – Professional certification in ECG and cardiac monitoring.
- **First Prize** – Paper Presentation on *"3D Printing using Mango Leaves"*.
- Completed **Hands-on Training** in Medical Equipment Troubleshooting.
- Completed **Medical Coding Training**.
